Dear Juzoor for Health & Social Development,

Congratulations! Your American Heart Association International Training Center has been recognized as an American Heart Association **Award of Merit** recipient.

We value, respect and honor the work you do each day to bring high-quality lifesaving training to hospitals, pre-hospitals, workplaces and general public in your communities. Your effort is creating a ripple effect that will improve systems of care, strengthen the chain of survival, improve safety and save more lives.

We created this recognition program to celebrate that commitment to saving lives and recognize those International Training Centers who exemplify quality training with a significant or meaningful impact.

We thank you for your commitment to quality lifesaving training and we celebrate your outstanding impact over the last year.

Together we can save lives.

Sincerely,

Michael Hulley
Director, International Emergency Cardiovascular Care Programs
